Zerobase

Anonymous. Effective. Accessible to all.

Dear Fake Org:

We are so glad you have taken this critical step towards making New Hampshire safer.

By having your visitors check-in by scanning the QR code(s) we have provided you, you are contributing to a network for check-ins that will help trace, reduce, and stop the spread of COVID-19.

This packet contains the following materials:

- A QR code PDF document to print out for your business
- Simple instructions on how to use Zerobase
- Frequently asked questions and answers

We created Zerobase technology to be as business-friendly and easy to use as possible, and we are here to help you in any way we can. If you have any trouble and can't find the answer to your question in the Zerobase FAQs, please contact us at support@zerobase.io.

Stay safe and stay healthy. Let's get through this together.

Sincerely,

The Zerobase Team
